Seven Rules for Life

The following are some rules that we all need to listen to everyday.

1. Let it go, never ruin a good day by thinking about a bad yesterday.
2. Ignore them, don't listen to other people live a life that's empowering to you.
3. Give it time, time heals everything.
4. Don't compare, the only person you should try to beat is the person you were yesterday.
5. Stay calm, it's okay not to have everything figured out. Know that in time you'll get there.
6. It's on you, only you are in charge of your happiness.
7. Smile, life is short, enjoy it while you have it.

Sometimes I think we are so entangled in our everyday lives to remember that we are all here for a higher calling. I hope we all can learn in 2024 to remember why God put each one of us here.

Sometimes it is the small stuff that matters the most.

As we approach the Spring this year remember the words *"If you want to hear the Sound of the Birds, don't buy a Cage, Plant a Tree."* Remember to Plant America.

Kathy Sudduth, Garden Club of Alabama President

The below link is to an interesting article that GCA helped this writer research and she gives us credit in her article! It is about dress designer Ann Lowe born in Clayton, AL in 1898. She designed Jackie Kennedy's wedding dress! Anyway, we hope you enjoy Debra Moffitt's very interesting article. Happy reading, Kim

Monarch Butterfly Information for Club Projects

The Live Monarch Foundation's website has lots of information. The foundation sells milkweed seeds in packets or bulk amounts. Clubs can buy the bulk amounts and hand small packages out at community events. The website also has activities for children.

www.livemonarch.com

*Scientists have discovered that **Tropical Milkweed** is detrimental to Monarch butterflies because it causes them to gain weight and makes their wings smaller.*

NGC Deep South Region Convention 2024

Springtime in the Smokies

Hosted by

Tennessee Federation of Garden Clubs, Inc.

March 19-20, 2024

The Park Vista

705 Cherokee Orchard Road

Gatlinburg, Tennessee

https://www.easyreg.org/cgi-bin/acct/A8SB6A87WC/displayForm.pl?dir=1S73FWO4_2023

If anyone has questions or would like to place an ad in the program book contact Debby Cooper, Director at 865-705-9451 or the registrar, Suzan Bowman at suzanbowman@gmail.com.

PLANT AMERICA- Plant for Pollinators National Garden Clubs President Brenda Moore wants to encourage NGC members to make our gardens more than just beautiful. That's why she created the National Garden Clubs Pollinator

Garden Certification program. Our gardens can support birds, bees and other insects, and this program provides the incentive to take additional steps to make sure we're providing all the components to help pollinators thrive.

A checklist to make sure you have everything you need to support pollinators includes Food sources, a Water Source, Areas to raise young.

You probably already have several plants that provide pollen and nectar. Shrubs with berries provide wintertime nutrition. You don't have to install a pond, but what about a birdbath? Consider adding a heater for fresh water in

the winter. Many of us have birdhouses in our gardens, but a small, inconspicuous log or brush pile can provide a safe place for insects to nest.

APPLY HERE <https://gardenclubwebsite.wufoo.com/forms/zl7pbyz17msloz/>

to have your yard recognized as a National Garden Clubs Certified Pollinator Garden! Once approved, you will have the option to order an NGC Certified Pollinator Garden Yard Sign!

The award-winning **Festival of Flowers** will celebrate its **31st year in downtown Mobile's Cathedral Square** by proudly showcasing horticultural displays created by the Mobile area's best teams of florists, nurseries, landscapers, designers, and artists. They will compete for bragging rights for the Festival of Flowers People's Choice Award. Enjoy live music, outdoor seminars, and select vendors that are in keeping with the Festival of Flowers tradition. Special events include ArtWalk and a Saturday morning Exotic Car Show.

What a special day for the Garden Club of Alabama at the **‘Every Light a Prayer for Peace’** and Christmas tree lighting ceremony at the Capitol and tea at the Governor’s Mansion before the tree lighting and prayer. Governor Ivey, Kathy Sudduth, all the speakers, 151st Army National Guard Band, and of course Santa made this a very special and prayerful start to our Christmas season in honor of our military and their families who keep us safe and free.

“SOW – A Planting Companion” is an app which is an excellent tool for gardeners. It's designed to tell you the optimum time to plant each crop in your home garden. Simply choose your location and start planting. Click on the photo of a crop within the app to see more information.

<https://www.aces.edu/.../lawn.../sow-planting-companion/...>

Loofah *Luffa Aegyptiaca*

Luffas (*Luffa*, a.k.a. loofa or loofah) thrive in hot and humid conditions. They need a trellis or fence to grow upon as luffa is a vining plant, similar to cucumber. Luffas belong to the Cucurbitaceae or gourd family. They are edible but in the US they are grown as sponges. They can be used in many ways—even to support flowers in a vase.

Now is the time to start seedlings as they have a long growth period if you choose to use the dried core.

Below is an article which explains how to grow and prepare loofahs.

<https://www.goodhousekeeping.com/home/gardening/a20706975/how-to-grow-your-own-loofah-sponge/>

This spring, two different broods of cicadas — one that lives on a 13-year cycle and the other that lives on a 17-year cycle — will emerge at the same time from underground in a rare, synchronized event that last occurred in 1803.

The editor while living in Northern Virginia experienced one year where the cicadas were everywhere. One could not open their car window or sit outside!
